Urinary Tract Support

Do you know if your urinary tract need support?

It starts with pressure or pain in the lower abdomen, a frequent urge to urinate, and a burning sensation when you do. These are symptoms of Urinary Tract Infection (UTI), and it will strike one out of five women. While it's much rarer for men to contract a urinary infection, it can be much more serious when they do

Genitrac cleanse and purify the urinary tract. It supports genitourinary function and healthy kidneys, helps flush toxins and boosts digestion to avoid future buildup of toxins.

Maintain genitourinary health.

- dual function: detox accumulated toxins & restore balance to kidneys, ureters, bladder & urethra
- boosts digestion to avoid digestive toxins
- support for occasional issues with frequency & urgency of urination
- effective formula with pedalium, amla & indian tinospora
- USDA organic
- vata, pitta, kapha balancing (vpk®)

Ingredients:

- Pedalium murex
